

MOTION DESIGN MASTER CLASS : BECOME NOVICE TO EXPERT

04 MONTHS*

Course Fee : ₹ 50,000+GST

Course Overview

The course introduces you to the fundamentals of Adobe After Effects and Motion design in the easiest and most fun way possible. You'll dive head-first into Adobe After Effects and begin creating animations from day one, such as keyframe animation, motion graphics, and compositing and you'll learn the principles behind great animations. The course is designed to give students a solid understanding of the animation process and to help them develop the skills necessary to create engaging and visually stunning animations for digital media. By the end of this course, you'll have multiple animated videos, with creative assets and guidance that can be added to your portfolio. It will also introduce them to various software and techniques used in the industry.
